DEĞERLİ İŞ ORTAĞIMIZ

Şirketimiz 1969 yılında alüminyum profil üretimine başlamıştır. O yıllarda alüminyum pek yaygın değilken ileri görüşlülüğümüz ve cesaretimiz bizi bu sektörde ilklerden yapmıştır.

Özellikle perde sektöründe başlangıcı 1972 yılına dayanan alüminyum korniş üretiminden başlayarak günümüzdeki her çeşit mekanizmalı perde profilleri üretimini gerçekleştiriyoruz. Sektördeki yenilikleri, modern çizgileri yakalayıp bu sektördeki öncülüğümüzü devam ettiriyoruz.

Teknolojiye ve insana yatırıma değer veren anlayışımızla daha iyiye ve daha güzele ulaşmak hedefimizdir.

DEAR OUR BUSINESS PARTNER

Our company started manufacturing aluminium profiles in 1969. Our vision and courage to take forward steps in early years when aluminum was not used broadly made us one of the pioneers in the sector.

Starting with manufacturing aluminium rails in 1972, today we manufacture all kinds of roller blind profiles. Since that year, we have kept our pioneer position in the sector by renewing ourselves in line with innovations and new modern styles.

With our emphasis on investing in people and technology, we always aim to achieve further.

Nakış Metal ürünlerinin yüksek kalitesinden ödün vermeden, mükemmel bir hizmet sağlamak için, farklı departmanları kapsayan bir yapı oluşturduk.

Bu departmanların herbiri kendi alanında uzmanlığa ve spesifik sorumluluklara sahip olmakla birlikte mantıksal olarak birbirlerine zincir halkaları gibi bağlıdırlar.

Buradaki tek gerçeklik müşterilerimizin tüm gereksinimlerini karşılayacak yüksek kalitede hızlı ve doğru üretimdir.

In order to provide a perfect service without sacrificing the high quality of Nakis Metal products, we have built a structure covering different depatums.

Each of these departments is logically linked to each other like chain rings, with their own expertise and specific responsibilities.

The only reality is that it is fast and accurate production at a high quality to meet all the needs of our customers.
